

Live)

**HAS NOW
CHANGED TO**

**SUNBELT[®]
RENTALS**

As part of A-Plant, we have brought together our family of leading equipment providers under one clear brand to make it better, faster and easier for you to access our wide range of specialist products and services.

What does this mean to you?

The name Live Trakway and Barriers may have changed but we are still the original company (and in some cases, people!) who created the Trakway access hire industry back in 1966. We remain a 350-strong pioneering team with a foundation of geotechnical and public access engineers and we are still the largest, safest, most qualified and decorated business in our sector.

We believe you could not be in better hands.

With 5 decades of innovation, our experts have solved virtually every challenge imaginable, from temporary roadways to transport buildings in one piece to underwater platforms for festival stage foundations, we have solved them all and are already thinking of ways to solve your next challenge.

Finally, but most importantly I'd like to personally thank you for your continued business and all of us at Sunbelt Rentals are looking forward to working with you in the future.

Many thanks

Gordon McKay
Managing Director of Engineered Access
